WARNING
Due to Extensive Winter Kill Areas, Trails are Subject to Closure or Re-routing. Please Avoid Any Portable Power Generator to On-Ground Signage.

The Togwotee Pass area offers some of the best high elevation riding in the west. Snow can depths can vary between 0 - 30 feet. Elevations range from 8000 to over 10,000 feet above sea level. This area includes two national forests (the Shoshone National Forest) and the Bridger-Teton National Forest. The trail system crosses over 11,000 feet of trail.

The Gros Ventre area has approximately 37 miles of groomed trail and is located just east of the Tetons. This trail system provides easy access to the Togwotee, Dubois and Pinedale areas. Some snowmobiling is restricted to the trail in most places because this is a very sensitive wildlife area. Please rate and easy re-routing as posted on the trail. The Gros Ventre Valley is very special with spectacular views of the Tetons and the possibility of seeing elk, moose, deer, mountain sheep, coyotes and bears. This lower end of the trail can experience low snow conditions. At higher elevations, it can reach five feet.

Winter conditions are varied. Most of the trail is flat and the snow is generally good. There are occasional areas of deep snow or hard packed snow. The snow is usually more powdery than in areas further west. The temperature is generally cooler and the wind is usually stronger.

The Lander area has 118 miles of trails through scenic-forested mountains. Excellent ice fishing can be enjoyed in the winter. There are two national forests (the Shoshone National Forest and the National Forest) and the Bridger-Teton National Forest. The trail system crosses over 11,000 feet of trail.

The Continental Divide Area follows the Wind River Range and includes trail systems in the Lander, Pinedale, Dubois, and Togwotee areas. Snow can depths can vary between 0 - 30 feet. Elevations range from 8000 to over 10,000 feet above sea level. This area includes two national forests (the Shoshone National Forest) and the Bridger-Teton National Forest. The trail system crosses over 11,000 feet of trail.
